LOCATION

Lebanon

PROFILE

Full-stack developer focused on C#, ASP.NET Core, SQL Server, REST APIs, and responsive web interfaces. I value readable code, reliable behavior, and practical problem-solving.

TECHNICAL SKILLS

Backend

C#, ASP.NET, ASP.NET Core, REST APIs, Entity Framework Core

Frontend

HTML, CSS, JavaScript, Bootstrap, Telerik UI

Database

SQL Server, SQL, Data Modeling

Tools

Git, GitHub, Visual Studio, Postman

Engineering

OOP, SOLID, Design Patterns, Debugging, Testing

EDUCATION

B.Sc. Computer Science

Lebanese University

2023 - 2026

Coursework: OOP, Data Structures, Database Systems, Software Engineering, Web Development

EXPERIENCE

.NET Application Development

ABM | Professional Experience

- Developed and maintained .NET application features and backend functionality.
- Investigated production issues through structured debugging and testing.
- Worked with databases, established systems, and server deployment workflows.
- Updated applications while preserving existing business behavior.

Financial Message Processing System

AEG | Full-Stack Development

- Built workflows to read MT files, extract message data, and persist it in SQL databases.
- Developed ASP.NET backend services and integrated frontend components.
- Built and maintained Telerik UI components for operational users.
- Tested automated file-processing workflows and debugged application behavior.

SELECTED PROJECTS

Personal Developer Portfolio

Full-stack portfolio with a secure contact system, Azure SQL storage, authentication, and a private message dashboard.

ASP.NET Core

C#

EF Core

Azure SQL

Bootstrap

Financial Message Processor

Web application that processes structured financial messages, stores extracted data, and presents it through an operational interface.

ASP.NET

C#

SQL Server

Telerik UI
